

Data Files Used

LCGA Input Data

Located in `/shared/healthinfolab/datasets/ABCD/Irritability/Clinical_Data/Irritability/Release_5.0/`

File	Description
<code>abcd_cbcl_irr_index_release5.0_0m_long.csv</code>	CBCL irritability index — baseline (0 months)
<code>abcd_cbcl_irr_index_release5.0_12m_long.csv</code>	CBCL irritability index — 12-month follow-up
<code>abcd_cbcl_irr_index_release5.0_24m_long.csv</code>	CBCL irritability index — 24-month follow-up
<code>abcd_cbcl_irr_index_release5.0_36m_long.csv</code>	CBCL irritability index — 36-month follow-up
<code>abcd_cbcl_irr_index_release5.0_48m_long.csv</code>	CBCL irritability index — 48-month follow-up

Key variables used: `src_subject_id`, `eventname`, `cbcl_irr_index_cnst`

ABCD Package Files

Located in `/shared/healthinfolab/datasets/ABCD/Package_1215452/`

Demographics

File	Description	Key Variables
<code>pdem02.txt</code>	Parent demographics	<code>interview_age</code> , <code>demo_sex_v2</code> , <code>demo_race_a_p__*</code> , <code>demo_ethn_v2</code> , <code>demo_comb_income_v2</code> , <code>demo_prnt_ed_v2</code> , <code>demo_prnt_marital_v2</code>

CBCL (Child Behavior Checklist)

File	Description	Key Variables
<code>abcd_cbcls01.txt</code>	CBCL syndrome scales and DSM-oriented T-scores	<code>cbcl_scr_syn_*_t</code> , <code>cbcl_scr_dsm5_*_t</code>
<code>abcd_cbcl01.txt</code>	CBCL raw item responses	Raw item columns (T-scores are not in this file)

K-SADS (Kiddie Schedule for Affective Disorders and Schizophrenia)

File	Description	Key Variables
<code>abcd_ksad01.txt</code>	K-SADS parent diagnostic interview	<code>ksads_1_3_p</code> , <code>ksads_3_229_p</code> , <code>ksads_15_432_p</code> , <code>ksads_15_91_p</code> (irritability); <code>ksads_14_*</code> (ADHD); <code>ksads_2_*</code> (ODD)

Emotion Dysregulation

File	Description	Key Variables
<code>diff_emotion_reg_p01.txt</code>	DERS — Difficulties in Emotion Regulation Scale, parent-report	<code>ders_upset_*</code> items (summed to <code>ders_total</code>); <code>ders_upset_irritation_p</code>

Note: This file contains **no baseline rows**. Data is loaded across all timepoints and each subject's earliest available observation is used.

ODD (Oppositional Defiant Disorder)

File	Description	Key Variables
<code>opp_defiant_disorder_p01.txt</code>	K-SADS ODD symptom items	<code>ksads_odd_raw_*</code> (binary 0/1 items summed to symptom count)

According to the paper [Characterizing the Neural Correlates of Response Inhibition and Error Processing in Children With Symptoms of Irritability and/or Attention-Deficit/Hyperactivity Disorder in the ABCD Study®](#), The most important modules to look at are:

- From the Major Depressive Disorder module: "Irritability Present"
- From the DMDD module: "Temper outbursts occur 3 or more times per week"
- From the Oppositional Defiant Disorder module: "Often touchy or easily annoyed Present", "Often loses temper Present"
